

Now is the time 🕒 to take back our country! 🇺🇸

Starting with ELECTIONS! 🗳️

Citizens must DEMAND 🙋

what Congress has FAILED to do ... 😡

Verification of Eligibility to VOTE 📄 😬

at the County level!

Commonly provided documentation (other documents MAY be substituted)

1. **Identity** – Driver’s License, Birth Certificate, Social Security Card, US Passport
2. **Residency** – Driver’s License, Utility bill with residential address
3. **Citizenship** – Birth Certificate, US Passport, Naturalization papers

Our election laws have been bastardized to the point where anyone can register to vote without any documented proof. In addition, they may register multiple times, creating multiple voter records!

This can and must be fixed at the COUNTY level! 🛠️

It will require:

- * commitment from citizens
- * courage from elected officials
- * cooperation from the county and state Board of Elections

Step 1: Citizens – Contact your County Officials (Executive, Legislators, Board of Elections).

Demand that the County Board of Elections verify eligibility requirements for registered voters.

Step 2: County Board of Elections – Send out notification to registered voters. Explain that it is not mandatory, however, if documentation is not provided, their vote may not count!

Step 3: Citizens – Submit you eligibility requirements to your county Board of Elections.

Step 4: County Executive/Legislators – If the County and/or State Board of Elections fails to do their job of verifying voter eligibility, a lawsuit will be served for mal-administration in violation of federal and state election laws and the constitution. ⚖️

Step 5: County Board of Elections – If a registered voter has not been verified and requests a ballot, they will be offered a provisional ballot. However, it will not be counted unless and until their eligibility is verified before the election certification deadline. This must be enforced!
